Former BlackRock Advisor Tells RFK, Jr.: 'FDA Is in on the Cover-Up'

In an interview with former BlackRock advisor Edward Dowd on "RFK Jr. The Defender Podcast," Robert F. Kennedy, Jr. and Dowd discussed why they believe COVID vaccine makers committed fraud, and government agencies know it.

In an interview with former BlackRock advisor Edward Dowd on "RFK Jr. The Defender Podcast," Robert F. Kennedy, Jr. and Dowd discussed the financial and moral implications of fraudulent data from the COVID-19 vaccine trials.

Dowd, a managing director with BlackRock from 2002 to 2012, said, "what tipped me off to the fraud" was when the U.S. Food and Drug Administration (FDA) announced it wouldn't release the trial data for 75 years. He knew something wasn't right.

Dowd told Kennedy:

> "The FDA is in on the cover-up, something went down. The other tip for me was in November of last year, a friend of mine from the biotech industry discovered that Pfizer had failed their all-cause mortality endpoint. And that was not available to us when this fanfare occurred in November of 2020, when they all got excited about 95% efficacy."

Dowd concluded, "the FDA didn't really look at this clinical trial data" yet rushed it through due to political pressure or "maybe straight-up bribes," but either way, he said, the vaccines should have never been approved.

Kennedy and Dowd discussed how the trial numbers were skewed to make it seem the vaccines were effective when the real data showed otherwise.

Kennedy said:

> "What it really means is you have to give 22,000 vaccines to prevent one COVID death. And if you're gonna give 22,000 vaccines, you better make sure that the vaccines don't kill anybody. Because if they kill one person, you've canceled out any benefit."

Kennedy described how the vaccine makers manipulated the data and the news to maximize profits. He asked Dowd why he thinks there will be consequences.

Dowd said:

> "I think there's enough proof for people to investigate fraud in the clinical data and the FDA's complicity in this … The tragic part of this is we had to wait for real-world evidence. And the real-world evidence is so awful that there's gonna be a public outcry. And even though the mainstream media is not participating with this yet, they will. You can't hide this anymore."

BUY TODAY: Robert F. Kennedy, Jr.'s New Book — 'The Real Anthony Fauci'

Dowd also told Kennedy, "investors are slowly waking up to the fact that something is not right" and some are selling their shares in Pfizer and Moderna.

He also said that when the insurance industry awakens to the fraud, there will be greater consequences:

> "There's an industry that's been defrauded. It's the insurance industry. They are currently paying for excess deaths due to a product that kills. And they're gonna be paying for years of disability from vaccine injuries. I don't think they're gonna put up with that once they realize what's happened."

Kennedy described how the insurance industry has ignored the autism epidemic and the general degradation of health in the U.S. He asked Dowd to explain why insurance industry executives would react any differently to illness and death caused by COVID vaccines.

Dowd said:

> "The insurance industry didn't price this, this is the problem. So it's such a catastrophic number and the injuries that are gonna be created for years, they're gonna hurt their capitalization over time… you've been seeing a problem that's been going on for years, but it was in different, smaller areas — but now they bit off more than they can chew. They just poisoned 220 million Americans. This is literally a bridge too far."

Kennedy and Dowd discussed why the false narrative surrounding COVID is about to crumble.

Kennedy commented on people's reluctance to doubt the medical profession and the pharmaceutical industry:

> "The big pushback you get, at least that I get, when I try to explain to loved ones and family and friends — they say, 'We don't believe it. There's a million doctors out there, and you're saying that they're all involved in a conspiracy? That they all know that they're giving this poison to people and that they're killing them? There's no way that's happening.'
>
> "And what I say is, the doctors don't know — they believe what the [Centers for Disease Control and Prevention] and FDA tell them. All sorts of information. Very few of them are actually reading the peer-reviewed publications.
>
> "We're thinking independently and questioning the authorities."

Some Americans might remember back to a time when crimes were committed and the criminals were actually arrested, prosecuted, and, when found guilty, given the appropriate punishment....

Those same Americans are greatly disappointed as this scandal goes on (and on, and on) without the required resolution, while wondering to themselves how those days seem to have become only distant memories of a time long, long ago.

and I'm one of those who remember. Now, we just allow the uber wealthy to act like kings. They live outside of the law. They can kill as many people as they desire and jail is the last place they will go. It will continue until people demand different.

Exactly. Instead of gathering in numbers and demanding accountability, Americans have become afraid to act because of the Jan. 6th incident. Planned protest across the nation in large numbers would work but the problem is leadership. Pres. Trump was a true and fearless leader something totally lacking at the moment. I wish the truckers would have gone on strike - crippled the nation for a period of time - that would have brought Biden to his knees.

It is up to the PEOPLE to stand up and protest. It only takes 1 group in 1 state or town to start the ball rolling. We have been holding protest March's (Monthly) hear in Australia (started in each Capital city of each State) with numbers increasing each Rally 10,000's then when the Canadian Truckers did the blockade that encouraged other countries to follow. We did here in February with lots of people in cars and caravans to Canberra (earlier this month the Police counted 1.4 million cars in one day) the organisers thought

around 4 million were there that week end. Some people who have lost their jobs (refusing to have the poison jab) are down there 24/7 & others travel down after work on Friday and return home Sunday. Of course MSM don't cover these protests not even when the Police used LRAD and radiation last month (Burning people - like cold sores on neck and lips) The people still go back. This will not STOP until the PEOPLE say NO - I do NOT COMPLY

The problem is not the elected, it is their power.
Different elected would result in different morons in charge.
When the government became an industry of its own, the people in charge of the bureaucracy (the Fauci) became the real rulers. Politicians come and go, they last decades.

Right, people must demand different. But also people MUST wake up. RFKJr discussed critical thinking... A lot of people would never believe that the FDA--the 3rd party trusted institution in this situation--and the CDC would lie to people, and especially on such a grand scale, and double especially, when it is a matter of life and death. I've had suspicions about the FDA for years because of various things that are readily available in European countries but the FDA withholds here. Certainly it is to create a demand for certain medical services, other medicines, etc. in the U.S. With COVID, we see that their corruption, and evil, knows no bounds.

RFKJr mentioned trying to convince his family members of the FDA and CDC's role in the fraud, but alluded to the fact they were victims of fear porn which causes a loss in all critical thinking skills. The fear porn is from the excessive MSM reporting, advertisements, etc.

Therefore, I'm not sure how to convince people to wake up? The best advice (and maybe only good advice) from Hollywood is from the movie Jerry MacGuire, "Show me the money!" A large proportion of our great American citizens trust our long-standing institutions, and would never accept their evil and deceptive intent with the COVID vax and withholding data. However, they will grasp and accept a financial motivation for Big Pharma. After that is accepted, kickbacks for FDA and CDC, stock earnings for senators and representatives, and pymts to MSM for ads can be included.

Will any of them ever be held accountable for conspiring and colluding to dupe the American people? Would they have allowed the use of the W.H.O. essential medicines (IVM, HCQ) if the patents weren't expired or if 45 did not shout it from the podium? How long was the plan in motion? The American people want answers and we all should be outraged and standing on the steps of the Cap daily demanding accountability for the cover ups and conspiracy to withhold the truth from the American public. Censoring truth merely points the finger at those who seek to hide it.
Thank you, RFK Jr., for bringing the truth. Bought several copies of your new book #TRAF and gave them as gifts.

Psychopaths are running the world. Their disorder includes zero empathy. Psychopaths that are also sadistic enjoy harming others and/or watching people suffer. According to Business Insider the most popular profession for a psychopath is CEO. The second most popular profession for a psychopath is lawyer and most elected government representatives are lawyers. Looks like the psychopaths are shooting for world wide domination.

According to Gardiner Morse, senior editor at Harvard Business Review,
“Roughly 1% of the population are certifiably psychopathic. True psychopaths are diagnosed according to very specific clinical criteria, and they’re nothing like the popular conception. What stands out about bona fide psychopaths is that they’re so hard to spot. They’re chameleons. They have a cunning ability to act perfectly normal and indeed to be utterly charming, as they wreak havoc on the lives of the people around them and the companies they inhabit.

Many of psychopaths’ defining characteristics—their polish, charm, cool decisiveness, and fondness for the fast lane—are easily, and often, mistaken for leadership qualities. That’s why they may be singled out for

promotion. But along with their charisma come the traits that make psychopaths so destructive: They're cunning, manipulative, untrustworthy, unethical, parasitic, and utterly remorseless. There's nothing they won't do, and no one they won't exploit, to get what they want. A psychopathic manager with his eye on a colleague's job, for instance, will doctor financial results, plant rumors, turn coworkers against each other, and shift his persona, as needed, to destroy his target. He'll do it, and his bosses will never know."

Very well stated. I would like to add that they are admired by many because they seem to be fearless. This is in fact the case because they don't know the emotional state of shame. To be shunned and excluded from a group (the tribe) is a basic fear we all share; all but the socio- and psychopaths. They know they can manouver their way out of any situation. If publicly exposed, which hardly ever happens, they will just move on to a new community, find a new job, start a new family and pick up their game again. They are predators and consider all who are different from them stupid and fair game.

Psychopaths is a mental health disorder and you should not shame real patients. Moreover they would not organise themselves in such numbers. A specific group has been granted worldpower after WW II. Documents still there to verify. The world has been hijacked. Operation Glaudio destroyed everyone not to their liking. Obama's secret army JSOC took over with a killlist of 3000 a day. If one in that specific group speaks out they are dead. Obama can be heard to say on video how We dedcide on regimechange in Ukraine. It is all orchestrated,, every revolution, perpetual wars, to benefit a select few. So are vaccins producing billions of profit of a select few and at the same time realizing Worldpopulationreduction, Eugenics. Openly talked and written about for decades. The rest of humanity is gullible, believes MSM and do not research further. Within a people like the Dutch we first had the division between vaccinated and non vaccinated and now added those Pro Ukraine and those Pro Russia and those pro resolving conflicts in other ways than wars. A few days ago the man speaking out about c vaccins was arrested for rioting. i guess in the USA that would be domestic terrorism. But why are most ordinary humans so gullible. Could it be that they are targeted with psychotronic weapons/neuroweapons. Subliminal messaging. Or are they just lazy, spoilt and not interested in truths, not doing further research. Donbass 2015 by Anne Laure Bonnet sheds some truths on this 8 year lasting wars, full of warcrimes by Neo Nazis that hate jews and russians. Plead on national tv to kill russian children. Whilst their PM cries about children killed before american congress.

All most all of this is true. However, good careful upbringing is often able to get people with this condition to learn how to live productively in our normal society. They can learn to feel good about doing what is right & understand that doing certain things will seriously bother normal people because they have normal brains. If the child is only punished for a birth defect, that keeps him from knowing about empathy, love & guilt or how to navigate society productively, he will probably grow up hating normal people who seen to pick on him unfairly. We need to recognize this problem & help them just as we help with other birth defects and injuries.

This medical fraud and genocide is as big as the issues that were brought to bear at the Nuremberg trials. But there will be a huge attempt by the White House to derail any drive for justice, and they're using the same swamp creature they used to manage and derail the inquiry into 9/11. So will the damage done to the insurance industry, which has to pay out a million more death claims for poison shots make a difference, or will the Federal Reserve print more money to pay off their policies to hush things up.

I have been telling people how aspartame is poison... I get violently ill, severe migraine headaches, loss of sight in one eye, squiggly lines in my vision, and vomiting, blood and bile. I have brought this to many doctors and people I have known, that's approved by the FDA...
My mother invented mini maids, she found a marketing manager to sell her product. he was stealing, she called him out, he then took her to court for supposedly breaking the contract, the Illinois judges kept this in the court for 15 years never looking at the contract or they would have known the real criminal, they drained my mother of all her money, she could not get a lawyer in the area because the man who did this to her use to work as a fraud investigator, and has done this to people over and over with the help of the state of Illinois and they know they are all corrupt and will go down.

My point is that all these 3 letter agencies, and our government don't care about us... They use their power and authority to benefit themselves.... We must exit our governments and create a different life for our children, I don't see any way else. I'm feeling that to be the general consensus of humanity around the globe. more and more congress men and woman are being exposed for their stock shares in these vaccine and military weapon companies which means they are making sh!T ton of money off of our suffering... they keep us poor and in fear, so we can not defend ourselves or our families... their time here is up!
Peace, Love, Unity...

The Corona psyop followed a script: "Let's give everyone AIDS." If you read the AIDS chapters in RFK Jr's book, you will learn AIDS is a giant biomedical hoax and deception. The script was full of propaganda in-jokes all based on AIDS. That's why the origin story was "batsoup in a wet market" (c.f. "Bushmeat in a Bathhouse"). And the script played out with Remdesivir being the new AZT - biochemically they're almost the same thing. The reason they pushed this mRNA thing is it's a joke - it's basically an artificial retrovirus - so a "retrovaccine" like HIV. In 1986, Fauci killed Roy Cohn with AZT, in 2020, Fauci killed Roy Horn with Remdesivir. AIDS came to America from "gay cruising." Corona came on the Diamond Princess Cruise Ship.

We have all these worldwide, political, corporate and other leaders as accomplices in mass murder. How can they look into the eyes of any child, anyone for that matter, and go along with this? You can see the callousness, the hatred even, in Biden, Trudeau and Morrison. There's something quite wrong with them, others too. To conduct an fMRI on them would likely reveal neural defects. Years ago I read where the military conducted laser surgical procedures on jet fighter pilots that severed connections to the prefrontal cortex, lobotomies basically. They found that the pilots reactions were faster and more accurate as a result, and undoubtedly at the cost of other cognition processes. The procedure allowed for the bypassing of critical thinking that enabled immediate physical reactions; I'm guessing that's how it worked. These leaders demonstrate an obvious lack of empathy, they're sociopaths. Why?

The other thing I want to suggest is that these covid injections also contain substances that elevate serotonin and the effects, or release of serotonin, are timed and relatively long lasting. Serotonin is a calming neurotransmitter that is essential for feelings of self-worth and happiness. This may be why persons who are harmed by the covid injections keep going back for more. Some commenters have reported of relatives having adverse reactions and can't wait to go back for the next injection. Another, the wife of a man who recently died from an adverse reaction stated that he continued to support and get the shots. I read on a doctor's website where the injected nurses wrote about how much better, more safe and secure they felt and saw a

video where a nurse was positively giddy about the shots. I wonder if people are getting injected more often than is necessary (as if any of them are). They may very well contain mood elevating and addictive substances to push the compliance. Can this be looked into?.

This is a quote from an interview with Robert Malone by Candace Owens. It is featured on Mercola's and Owens' websites [links below]. It is hopeful suggessting that we now have the opportunity to experience a Great Awakening:

"There's the Great Reset, which is often tied to this language of 'build back better,' because that's the approved language from the World Economic Forum. So there's this Great Reset toward a world where we own nothing and we're happy … and we're told what to do and we do it. And there's the Great Awakening, where it could be a renaissance. If we use the metaphor of Europe in the 1400s, 1500s and 1600s, moving from a dark age into a renaissance … there was a period of intense explosion when people got intellectually engaged …If we allow ourselves to start thinking again and engaging with the world and engaging with each other, could we get to a point where we have a Great Awakening instead of a Great Reset? Where we become committed to each other and to a life of the mind and the body? I think that is a possibility. I don't think that we're too far gone."

In 2020 they already had the PCR tests for something they new not what it was? How do you test for a COVID-19 when they still didn't know what it was that they were testing for? This is total bullchit. I had gotten pneumonia in March 2020 and they told me it was not COVID-19, so they treated me and a week later I was not getting better and they changed the meds and I was well a week later. Than I got Pneumonia again in Sept 2020 and was treated and got better, Then got sick and got tested for COVID-19 and got Pneumonia again while I tested Positive for COVID was actually not as sick as I was with pneumonia the first two times and not even as bad as the Flue I got back in the 70s. I never got a flue or pneumonia shot in the past 48 years and the one time I did for a job I was sick with the flue for two weeks and lost my job anyway. When I went into the Hospital by the recommendations of an ambulance Tech because I had low O2 and a cough. When I was admitted to the Hospital they

immediately wanted me to sign permission to put me into a coma and intubate me, which I flat out told them under no circumstances will they give me any treatment that used Remdesivir or Intubate me. I refused all their COVID treatments and they went against my orders and administered Remdesivir anyway with O2, antibiotics, and a few other things I don't even know about. I asked them to give me Hydroxychloriquin with Zinc, and antibiotics, and they told me they don't do that. I wanted them to get intouch with my doctor and they never did. I was to be going home with Oxygen but they did not set that up either in hopes my O2 would drop and put me back in so they can collect more bonuses from the Government bonuses they get for each stage of COVID they can invent. My health has been declining from what they did in the Hospital and still getting weaker. I looked into the Remdesivir and found that it is a very Toxic antiviral drug. It supposedly has long range side effects and should have been used in only last ditch treatments, which I was not. I felt fine two days later and wanted to go home but was refused.

Poison control admits that these free home test kits that the Biden administration was sending out were found to contain Sodium Azide, much like the Swabs were said to contain ethylene oxide that is known to be carcinogenic and used to make antifreeze, this along with the fact that some doctors have admitted various adjuvants are used in vaccines to drive the immune response. I think it is safe to say

that given what has been revealed about these vaccines and that all vaccines contain these various adjuvants along with that we now know that vaccines lose their effectiveness should we be thinking about the fact that maybe just maybe vaccines are not all what that they are made out to be? If we have to take four doses of Polio, 5 doses of Dtap, and 2 doses of MMR, etc my children took multiple doses of Hepatitis, is it not safe to say that it could be that they are not that effective? I was vaccinated in the 70s and 80s and now they say that I might not have immunity from those vaccines. Some are saying these vaccines lose their effectiveness rather quickly so it is safe to say that they will never even come close to vaccines of the past and really are not vaccines at all. The way that vaccines are administered has become so complicated doctors admit this and given that childhood diseases are continuously on the rise and adults too may have illnesses that they get from childhood vaccines how can we really ever know because they will not admit their is a causal link even now with people dying right afterwards they will not admit it not directly, they will refer to the deaths, but if they are asked face to face they often will say things like there is no evidence that the vaccine caused the death.

The DNA in the vaccins comes from the foetuses they used as growmedium. Proven in multiple researches. Bill Gates collected DNA through PCR tests. PCR test can work as a vaccin claim. PCR test has nanomaterial replicating that gets into the brain. Deathrate prognosis for 25-44 years old 89 %. Also Soros created 2 biolabs in Serbia.

220 million people believe that the current government actually has their best interest in mind, that's the scary part.

I can understand that doctors listened to FDA for several months, but after those months, there is no excuse for them! After those months they have violated their oath!

"They just poisoned 220 million Americans."

That was an obvious outcome.

Since vaccines are for the healthy, not the sick, then the use of Emergency Use Authorizations (EUA's) for vaccines identifies the Satanist co-option of our institutions,* knowingly releasing poisons onto humanity, otherwise, of course, no sane individual would desire to accidentally destroy humanity with a vaccine that turned out to be deadly...quod erat demonstrandum.

It's one thing to provide an EUA for those who are already sick and in imminent course for death. The patient is going to die soon, so if the patient chooses, he/she can decide to take the chance on the new potentially dangerous treatment. This scenario, however, cannot be transferred to humanity without the risk of eviscerating humanity.

if more investors and more business owners wake up to the fact that people like bill gates want to bankrupt every single industry and buy them all up at pennies on the dollar ---- i really do feel that could turn the tide. this is what caused pushback in the past with bill gates - his smarmy business practices. no one wants one world dictator or one person owning every single industry... wake up this is a monopoly - i really hope we can turn things around and help mom and pop shops.. and the middle class.. and independent investors. break up these monopolies!
